13 Grape Lane

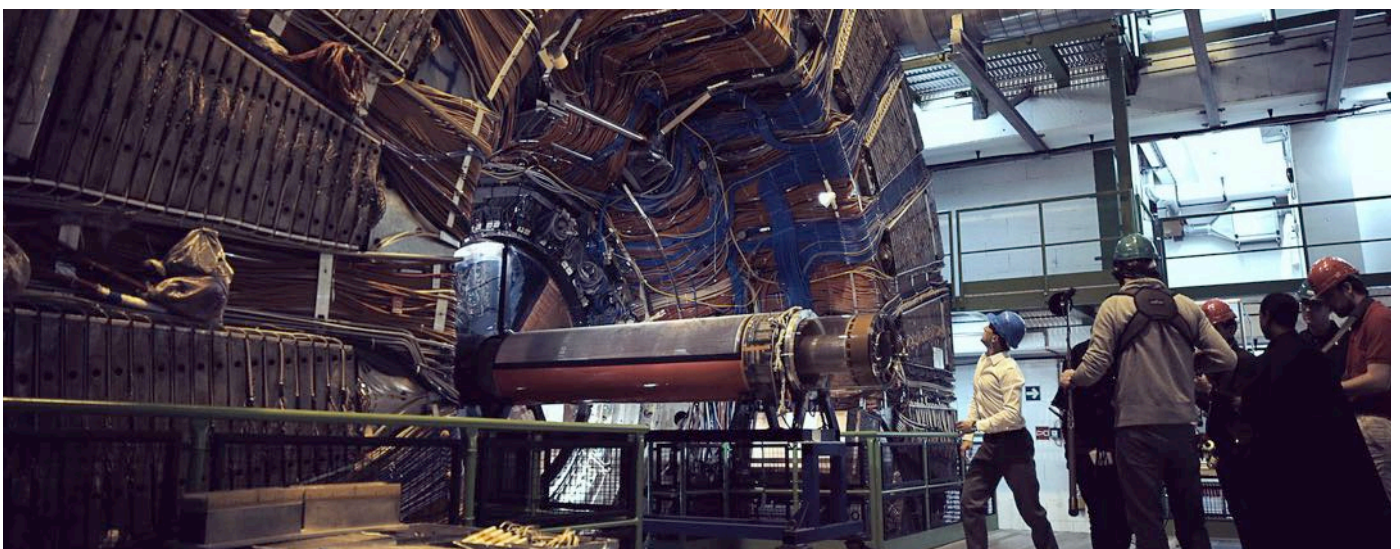

SYMMETRY

Ruben Van Leer

2015, 29:00

Symmetry is a dance-opera film shot inside CERN, the largest experimental particle physics facility in the world. With the cathedral-like majesty of the Large Hadron Collider as his theatre, a modern physicist searches for the smallest primordial particle and discovers a love without end...

SYMMETRY UNRAVELLED

Ruben Van Leer

2015, 24:00

Symmetry Unravalled is a documentary short about the collision of art and science in the world's largest machine: the particle accelerator at CERN. Accompanying the dance-opera film *Symmetry*, a common curiosity at the crux of man's fascination with the unknown is revealed.
